

In-Person Tour Guidelines and Policies

Provided court policy and public health conditions allow, the Learning Center will reopen for in-person tours on Mondays and Fridays, beginning October 18. Virtual field trips will also be available on select other days.

The safety of our visitors, staff, and community are our top priority. Court officials continually monitor the rate of COVID-19 and CDC guidance, and engage in ongoing discussions with state and county public health experts.

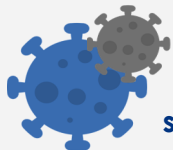

To help keep you, our staff, and our community safe, tours have been modified to encourage physical distancing, and some activities have been scaled back.

- Groups will be limited to 30, including adults; timed reservations will be required.
- Masks must be worn in the Learning Center by all visitors, regardless of vaccination status.
- Safety reminders, including physical distancing and traffic flow, will be marked.
- Hand sanitizer stations and restrooms (limited capacity) will be available for hand washing.
- Visitors should not enter the Learning Center if they feel sick or have a temperature over 100 degrees.

Additionally,

- Visitors will be expected to follow staff instructions and all guidance posted in the building.
- Teachers and any accompanying adults will be expected to monitor and correct student behavior throughout the tour.
- Staff are unable to facilitate tours of the Michigan Supreme Court courtroom on the 6th floor.

Visit the Michigan Supreme Court Learning Center website (courts.mi.gov/learningcenter) for more information about tours, programs, and resources.

We are striving to serve everyone safely and to the greatest extent possible; however, all plans – including confirmed tour reservations – are subject to change, should circumstances warrant.
